INVENTORIES, SHIPMENTS AND ORDERS
IN MANUFACTURING INDUSTRIES

JANUARY-1967-~~DECEMBER~~

DOMINION BUREAU OF STATISTICS

DOMINION BUREAU OF STATISTICS
Manufacturing and Primary Industries Division

INVENTORIES, SHIPMENTS AND ORDERS

IN MANUFACTURING INDUSTRIES

JANUARY 1967

Published by Authority of
The Minister of Trade and Commerce

June 1967
6504-501

Price: 30 cents
\$3.00 a year

Vol. 21—No. 1

TABLE OF CONTENTS

	Page
Introduction (Charts)	iv
TABLE 1. Estimated Value of Shipments in all Manufacturing Industries, by Province of Origin, Monthly - 1963 to date, by months	1
TABLE 2A. Estimated Value of Shipments, Orders and Inventory in all Manufacturing Industries, 1963 to date, by months	2
TABLE 2B. Estimated Value of Shipments, Orders and Inventory in all Manufacturing Industries, 1963 to date, by months - <u>Adjusted for Seasonal Variation</u>	3
TABLE 3. Estimated Value of Shipments, Orders and Inventory in Manufacturing Industries, 1963 to date, by months, grouped according to the Standard Industrial Classification	
Non-Durable - Major Groups 1, 2, 3, 4, 5, 6, 7, 10, 11, 18, 19 and 20	4
Durable - Major Groups 8, 9, 12, 13, 14, 15, 16 and 17	5
Major Group 1 - Food and Beverage Industries	6
Major Group 2 - Tobacco Products Industries	7
Major Group 3 - Rubber Industries	8
Major Group 4 - Leather Industries	9
Major Group 5 - Textile Industries	10
Major Group 6 - Knitting Mills	11
Major Group 7 - Clothing Industries	12
Major Group 8 - Wood Industries	13
Major Group 9 - Furniture & Fixture Industries	14
Major Group 10 - Paper & Allied Industries	15
Major Group 11 - Printing, Publishing and Allied Industries (not published separately, values included in Table 2)	
Major Group 12 - Primary Metal Industries	16
Major Group 13 - Metal Fabricating Industries (except Machinery and Transportation Equipment Industries)	17
Major Group 14 - Machinery Industries	18
Major Group 15 - Transportation Equipment Industries	19
Major Group 16 - Electrical Products Industries	20
Major Group 17 - Non-Metallic Mineral Products Industries	21
Major Group 18 - Petroleum and Coal Products Industries	22
Major Group 19 - Chemical and Chemical Products Industries	23
Major Group 20 - Miscellaneous Manufacturing Industries	24

TABLE OF CONTENTS

Page

Table 4. Statistics for selected individual industries, current and 12 previous months	25
Table 5. Ratios of Value of Inventory Owned to Value of Shipments, 1963 to date, by months:	
Industries grouped according to the Standard Industrial Classification	
Total inventory	38
Finished products inventory	39
Industrial Grouping -	
Industries included in groups of the Standard Industrial Classification, Tables 3 and 5	40
Concepts and Sources	42
Footnotes to tables	43

SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

- P Preliminary figures.
- ^r Revised figures.
- .. Figures not available.
- ... Figures not appropriate or not applicable.
- Nil or zero.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

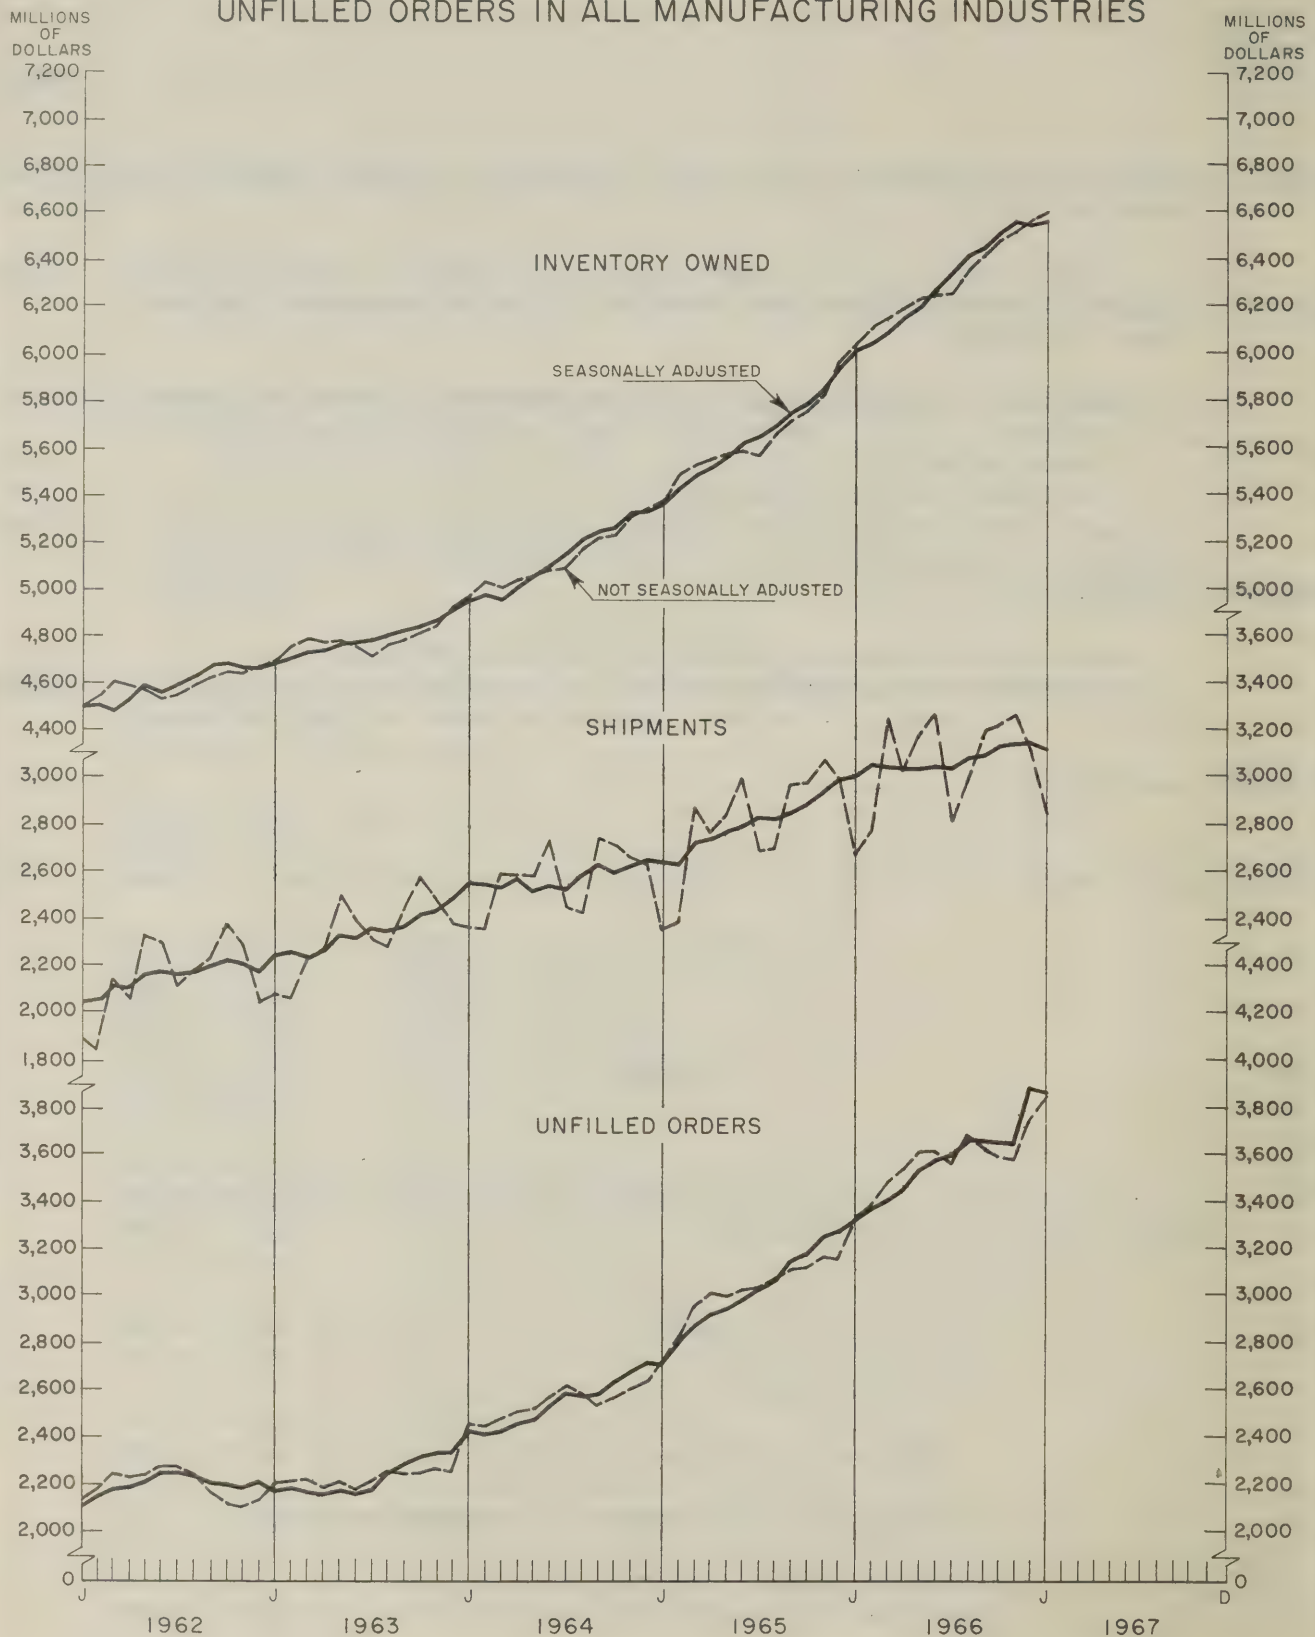

TABLE 1. Estimated Value of Shipments in All Manufacturing Industries, by Province of Origin

(9) Includes cement manufacturers, concrete products manufacturers and ready-mix concrete manufacturers.

(10) Includes petroleum refining and manufacturers of lubricating oils and greases.

TABLE 4. Estimated Value of Shipments, Orders, and Inventories in Selected Individual Industries - Continued

Industry	1966												1967
	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec. ^r	Jan.
	thousands of dollars												
<u>CHEMICAL AND CHEMICAL PRODUCTS INDUSTRY</u>													
<u>Manufacturers of mixed fertilizers:</u>													
Shipments	7,972	6,802	8,294	12,951	22,677	10,264	2,348	2,195	4,655	4,856	5,624	9,421	7,364
Total inventory owned	23,830	24,683	26,775	24,217	15,184	13,450	14,022	17,243	20,717	24,741	26,516	25,687	25,911
<u>Manufacturers of plastics and synthetic resins:</u>													
Shipments	12,423	12,978	14,777	14,225	14,783	16,169	13,396	15,167	16,268	15,740	15,879	14,357	13,359
Total inventory owned	18,588	19,133	19,691	20,048	20,468	20,475	20,952	20,571	20,699	20,512	21,098	22,455	22,524
<u>Manufacturers of pharmaceuticals and medicines:</u>													
Shipments	22,265	21,167	22,523	21,049	21,249	22,253	19,679	24,017	24,658	23,283	22,078	20,665	25,131
Total inventory owned	52,588	52,991	55,640	56,636	57,712	58,602	56,639	55,377	54,870	54,400	55,108	57,801	58,980
Raw materials	21,574	21,119	21,182	21,254	22,455	22,431	22,452	22,572	22,931	22,404	21,687	22,672	22,495
Goods in process	10,876	11,837	13,094	13,728	12,737	12,719	12,288	11,609	11,192	11,177	11,437	12,558	13,594
Finished products	20,138	20,035	21,364	21,654	22,520	23,452	21,899	21,196	20,747	20,819	21,984	22,571	22,891
<u>Paint and varnish manufacturers:</u>													
Shipments	11,953	13,296	18,292	18,951	20,925	22,608	17,149	18,004	16,060	14,294	14,117	11,644	14,415
Total inventory owned	45,221	46,588	47,751	47,492	47,051	45,699	44,791	44,564	43,260	44,021	44,758	46,214	48,014
Raw materials	15,458	15,887	16,966	16,620	16,271	15,949	15,837	15,555	15,141	15,287	15,058	15,410	15,867
Goods in process	3,238	3,157	3,323	3,307	3,362	3,184	3,295	3,289	3,431	3,404	3,487	3,633	3,713
Finished products	26,525	27,544	27,462	27,565	27,418	26,566	25,659	25,720	24,688	25,330	26,213	27,171	28,434
<u>Manufacturers of soap and cleaning compounds:</u>													
Shipments	16,220	16,126	17,995	16,369	17,312	16,736	16,311	17,366	19,529	19,500	17,453	14,563	17,282
Total inventory owned	27,308	27,417	28,336	29,040	28,994	30,285	29,874	28,841	27,027	27,092	27,904	29,682	30,150
Raw materials	9,271	8,996	9,515	10,060	10,139	10,903	11,308	11,602	10,938	10,870	10,844	11,389	11,379
Goods in process	2,360	2,347	2,689	2,498	2,459	2,379	2,338	2,433	2,197	2,022	2,123	2,175	2,185
Finished products	15,677	16,074	16,132	16,484	16,396	17,003	16,228	14,806	13,892	14,200	14,937	16,118	16,586
<u>Manufacturers of toilet preparations:</u>													
Shipments	8,126	8,765	8,835	8,417	9,153	9,032	7,477	9,055	11,666	13,844	12,224	8,403	8,415

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

<u>S.I.C. Code</u>	<u>Major Group 1. Foods and Beverages</u>	<u>S.I.C. Code</u>	<u>Major Group 5. Textile Industries - Concluded</u>
**1011	Slaughtering and Meat Packing Plants (s)(i)	211	Fibre Preparing Mills (s)(i)(o)
1012	Animal Oils and Fats Plants (s)	212	Thread Mills (s)(i)
**1013	Sausage and Sausage Casing Manufacturers (s)	*213	Cordage and Twine Industry (s)(i)
103	Poultry Processors	214	Narrow Fabric Mills (s)(i)(o)
**1051	Butter and Cheese Plants (s)(i)	215	Pressed and Punched Felt Mills (s)(i)(o)
**1053	Pasteurizing Plants (s)(i)	*216	Carpet, Mat and Rug Industry (s)(i)(o)
**1055	Condenseries (s)(i)	218	Textile Dyeing and Finishing Plants (s)(i)(o)
**1056	Ice Cream Manufacturers (s)(i)	*219	Linoleum and Coated Fabrics Industry (s)(i)(o)
**107	Process Cheese Manufacturers (s)	*221	Canvas Products Industry (s)(i)(o)
111	Fish Products Industry (s)(i)	*223	Cotton and Jute Bag Industry (s)(i)(o)
*112	Fruit and Vegetable Canners and Preservers (s)(i)(o)	**2291	Automobile Fabric Accessory Manufacturers (s)(i)
123	Feed Manufacturers (s)(i)	**2292	Embroidery, Pleating, Hemstitching Manufacturers (s)
*124	Flour Mills (s)(i)(o)	**2299	Miscellaneous Textiles Industry, n.e.s. (s)(i)(o)
125	Breakfast Cereal Manufacturers (s)(i)		
*128	Biscuit Manufacturers (s)(i)		
129	Bakeries (s)		
*131	Confectionery Manufacturers (s)(i)		
*133	Sugar Refineries (s)(i)		
135	Vegetable Oil Mills (s)(i)(o)		
1391	Macaroni Manufacturers (s)(i)		
*1392	Miscellaneous Food Manufacturers (s)(i)		
141	Soft Drink Manufacturers (s)		
143	Distilleries (s)(i)		
*145	Breweries (s)(i)		
*147	Wineries (s)(i)		
	<u>Major Group 2. Tobacco Products Industries</u>		<u>Major Group 6. Knitting Mills</u>
151	Leaf Tobacco Processing (s)(i)	*231	Hosiery Mills (s)(i)(o)
153	Tobacco Products Manufacturers (s)(i)	*239	Other Knitting Mills (s)(i)(o)
	<u>Major Group 3. Rubber Industries</u>		<u>Major Group 7. Clothing Industries</u>
**161	Rubber Footwear Manufacturers (s)(i)(o)	**2431	Men's Clothing Factories (s)(i)(o)
*163	Rubber Tire and Tube Manufacturers (s)(i)(o)	**2432	Men's Clothing Contractors (s)
**169	Other Rubber Industries (s)(i)(o)	**2441	Women's Clothing Factories (s)(i)(o)
	<u>Major Group 4. Leather Industries</u>	**2442	Women's Clothing Contractors (s)
*172	Leather Tanneries (s)(i)(o)	**245	Children's Clothing Industries (s)(i)(o)
*174	Shoe Factories (s)(i)(o)	246	Fur Goods Industry (s)(i)
175	Leather Glove Factories (s)	247	Hat and Cap Industry (s)(i)(o)
1792	Boot and Shoe Findings Manufacturers (s)	*248	Foundation Garment Industry (s)(i)(o)
1799	Miscellaneous Leather Products Manufacturers (s)	2491	Fabric Glove Manufacturers (s)
		2499	Miscellaneous Clothing Industry, n.e.s. (s)
	<u>Major Group 5. Textile Industries</u>		<u>Major Group 8. Wood Industries</u>
*183	Cotton Yarn and Cloth Mills (s)(i)(o)	2511	Shingle Mills (s)
*193	Wool Yarn Mills (s)(i)(o)	2513	Sawmills and Planing Mills (s)(i)(o)
*197	Wool Cloth Mills (s)(i)(o)	*252	Veneer and Plywood Mills (s)(i)(o)
*201	Synthetic Textile Mills (s)(i)(o)	*2541	Sash, Door and Millwork Plants (s)(i)(o)
		2542	Hardwood Flooring (s)(i)(o)
		256	Wooden Box Factories (s)(i)
		258	Coffin and Casket Industries (s)
		2591	Wood Preservation (s)(i)
		2592	Wood Handles and Turning (s)(i)(o)
		2599	Miscellaneous Wood Industries, n.e.s. (s)(i)(o)
	<u>Major Group 9. Furniture and Fixture Industries</u>		
		261	Household Furniture Industry (s)(i)(o)
		264	Office Furniture Industry (s)(i)(o)
		266	Other Furniture Industries (s)(i)(o)
		268	Electric Lamp and Shade Industry (s)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

While the total of \$5,660 million in manufacturers' shipments for January and February 1967 was 3.8 per cent higher than the comparable figure for 1966, estimates for each of the first two months of this year were slightly more than seasonally lower than the December values. The preliminary estimate of shipments showed a small drop in February to \$2,826 million from \$2,834 million in January. Seasonally adjusted, the series declined 0.4 per cent in each of the two months.

At the same time, new orders dropped from \$2,943 million in January to \$2,783 million in February and, seasonally adjusted, from \$3,079 million to \$3,036 million. This decline of 1.4 per cent in the seasonally adjusted data was markedly less than the 8.4 per cent decline in this series from December to January. The total value of unfilled orders, after growing more than \$100 million from December to January, receded by the end of February to a level \$44 million lower than in January. Seasonally adjusted, unfilled orders were 1.7 per cent lower at the end of February than in January which, in turn, had dropped 0.8 per cent from December.

End-of-February total inventories held reached \$7,000 million, compared with the estimate of \$6,941 million in the previous month; increases in the stocks of goods in process and finished products in February were partly offset by the decrease in raw materials.

Most of the decline in manufacturers' February shipments was in the durable goods industries where a considerable decrease was recorded in the transportation equipment industry group. In this group, the usually low February shipments in the motor vehicles and the motor vehicle parts industries were chiefly responsible. This influence on the trend in the durable goods industries was offset somewhat by a substantial increase, mainly seasonal, in shipments of the machinery industries. There was almost no change in shipments of non-durable goods manufacturers as a whole; a large decline in the food and beverage industries was greatly offset by increases in other industry groups, especially in the clothing industries where the level rose 17.2 per cent.

Inventories held by durable goods manufacturers in February rose 1.9 per cent to \$3,682 million from \$3,614 million in January with increases shown in goods in process and finished products. Non-durable goods producers on the other hand reported a small decrease in the level of February stocks; this decrease was due mainly to the decline in raw materials. Manufacturers' total owned inventories at the end of February were estimated at \$6,624 million, 0.4 per cent higher than the estimate of \$6,600 million in January. The tobacco industries recorded the largest increase in owned stocks, while the food and beverage industry group reported the most substantial decline, reflecting mainly the result of seasonal influence. Inventories owned by the electrical products industries at the end of February also showed large gains over the level of the previous month with the highest build-up centered in goods in process.

In February, the ratio of manufacturers' owned inventories to shipments was 2.34 and that of finished products to shipments was 0.86 compared with ratios of 2.33 and 0.84 in January 1967 and 2.20 and 0.77 in February 1966.

The preliminary estimate of durable goods manufacturers' unfilled orders at the end of February stood at \$3,310 million, down 0.9 per cent from \$3,340 million in the preceding month, but up 15.2 per cent from \$2,874 million in February 1966.

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

- 3997 Umbrella Manufacturers (s)
- 3998 Artificial Ice Manufacturers (s)
- 3999 Other Miscellaneous Industries (s)(i)(o)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

TREND SUMMARY

The values of manufacturers' shipments and new orders in March amounted to \$3,180 million and \$3,248 million respectively, 12.5 per cent and 16.6 per cent higher than the low levels of February but 2.0 per cent and 3.0 per cent lower than the estimates in March last year. The level of unfilled orders at the end of March was also up 1.8 per cent from the previous month and 11.2 per cent from March 1966 to a preliminary estimate of \$3,879 million. After adjustments for trading-day and seasonal variation, manufacturers' shipments were substantially down again from February to March, registering the fourth month of decline since December 1966. Manufacturers' new orders and unfilled orders, seasonally adjusted, also decreased for the third consecutive month in March. Total inventory held by manufacturing industries in March continued its steady and gradual rise to a preliminary estimate of \$7,039 million. The increase of total inventory held, seasonally adjusted, was 0.7 per cent with gains showing in all inventory components.

Manufacturers' shipments in the first quarter of 1967 totalled \$8,839 million, a small gain of 1.6 per cent over the same quarter of last year. At the preliminary estimate of \$1,468 million, March shipments of durable goods industries were 16.2 per cent seasonally higher than the estimate in February, but 3.2 per cent below the estimate in March 1966. Non-durable goods producers also reported a rise (9.6 per cent) from February to March and a drop of 0.9 per cent from March last year. All major industry groups reported advances, mostly seasonal, in March shipments, with relatively substantial increases shown in the transportation equipment industries (23.7 per cent) and the primary metal industries (20.9 per cent). March shipments in the leather industries and the clothing industries did not increase as much over the previous month as their seasonal patterns showed in the previous years; the values of shipments were below the corresponding estimates of last year by 15.9 per cent and 24.3 per cent respectively. On the other hand, the tobacco industries had an increase of 17.4 per cent over February and a 12.9 per cent increase over March 1966.

New orders received by durable goods industries during March were seasonally up by 25.4 per cent from the low level of February; an increase of 9.6 per cent was also shown by the non-durable goods industries. However, both the estimates of March new orders in durable and in non-durable goods industry categories were below the estimates of the corresponding month of 1966. Durable goods manufacturers' backlog of unfilled orders, estimated at \$3,390 million at the end of March, was 2.4 per cent above the February level and 13.7 per cent higher than March of last year.

The increase in the March manufacturers' total inventory held was contributed entirely by durable goods producers which reported an increase of 1.1 per cent from \$3,683 million in February to \$3,724 million in March with the largest build-up occurring in goods in process. A decline in the non-durable goods industries raw materials caused a slight drop in the total value of stocks held by that group in March. Estimates of manufacturers' owned inventories at the end of March were 0.4 per cent higher than the level at the end of February. Relatively significant increases in owned inventories were reported in the tobacco industries (6.2 per cent), the wood industries (3.1 per cent), the metal fabricating industries (2.8 per cent) and the machinery industries (2.7 per cent). Food and beverage industries and primary metal industries owned inventories showed the largest declines in March.

Both the ratios of manufacturers' inventory owned to shipments and finished products to shipments declined to their seasonal low of 2.09 and 0.77 respectively in March from 2.34 and 0.86 in February.

TABLE 1. Estimated Value of Shipments in All Manufacturing Industries, by Province of Origin

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

		3995	Stamp and Stencil (Rubber and Metal) Manufacturers (s)
		3996	Statuary, Art Goods, Regalia and Novelty Manufacturers (s)
		3997	Umbrella Manufacturers (s)
		3998	Artificial Ice Manufacturers (s)
		3999	Other Miscellaneous Industries (s)(i)(o)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

TREND SUMMARY

Preliminary estimates of manufacturers' shipments and new orders in April were down 4.1 per cent and 8.2 per cent from March to \$3,058 million and \$3,003 million respectively. The seasonally adjusted estimate of April shipments, however, was up 4.9 per cent from March following a four-month decline that started in December, 1966. The value of new orders received during April, after seasonal adjustment, rose 3.0 per cent from the previous month after showing decreases each month in the first quarter. Manufacturers' unfilled orders at the end of April receded 1.4 per cent from March, both seasonally adjusted and unadjusted.

Manufacturing shipments for the first four months of 1967 totalled \$11,906 million, an increase of only 1.6 per cent over the comparable figure for last year. At the preliminary estimate of \$1,390 million in April, shipments in durable goods industries dropped 5.1 per cent from March and 1.4 per cent from April, 1966. Non-durable goods manufacturers also reported a decrease in shipments from March to April of 3.2 per cent. Compared with the corresponding period in 1966, total January - April shipments of durable goods manufacturers were 0.2 per cent off while those of non-durable goods manufacturers rose 3.1 per cent.

All major industry groups in the durable goods category except the machinery industry and the non-metallic minerals industries, showed lower shipments values in April than in March, mostly seasonal. The primary metal industries registered a significant decrease of \$35 million to \$240 million in April. This total was 8.8 per cent below April, 1966. Within the non-durable goods industries, relatively large decreases were reported in the petroleum and coal products industries (-11.6 per cent), the clothing industries (-10.7 per cent) and the leather industries (-9.2 per cent). The tobacco industries reported a rather substantial increase in shipments from March to April (+8.3 per cent), the preliminary estimate of \$50 million in April was two-thirds higher than that of the same month last year and brought the four-month shipments total to 23.2 per cent above the level of 1966.

New orders received by durable goods manufacturers in April estimated at \$1,340 million dropped 14.1 per cent from a seasonal high in March and were down 8.2 per cent from the April estimate in the previous year. Outstanding orders on the books of durable goods producers also fell from the estimate of \$3,354 million in April. At this level, the durable goods manufacturers' backlog of unfilled orders at the end of April was 10.7 per cent higher than that of April, 1966.

Both total inventory owned and total inventory held by manufacturers at the end of April fell 0.5 per cent or 0.2 per cent, seasonally adjusted, from the level at the end of March. A large decrease in raw materials and a small decrease in goods in process in April were partly offset by an increase in finished products. The decline in manufacturers' stocks from March to April was due mainly to a cutback in raw materials of non-durable goods industries. Among the non-durable goods category, the tobacco industries and the paper and allied products industries showed the largest decline in owned inventories. Manufacturers in the durable goods industry group, on the other hand, reported a small increase of 0.5 per cent with more prominent rises showing in the primary metal industries, the electrical products industries and the non-metallic minerals industries.

In April, manufacturers' total owned stock was 2.16 times the value of shipments, while finished products inventory was estimated at 80 per cent of shipments for the month. Both ratios in April were up from 2.08 and 0.76 in March and from 2.05 and 0.73 in April of last year.

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

S.I.C. Code	Major Group 1. Foods and Beverages	S.I.C. Code	Major Group 5. Textile Industries - Concluded
**1011	Slaughtering and Meat Packing Plants (s)(i)	211	Fibre Preparing Mills (s)(i)(o)
1012	Animal Oils and Fats Plants (s)	212	Thread Mills (s)(i)
**1013	Sausage and Sausage Casing Manufacturers (s)	*213	Cordage and Twine Industry (s)(i)
103	Poultry Processors	214	Narrow Fabric Mills (s)(i)(o)
**1051	Butter and Cheese Plants (s)(i)	215	Pressed and Punched Felt Mills (s)(i)(o)
**1053	Pasteurizing Plants (s)(i)	*216	Carpet, Mat and Rug Industry (s)(i)(o)
**1055	Condenseries (s)(i)	218	Textile Dyeing and Finishing Plants (s)(i)(o)
**1056	Ice Cream Manufacturers (s)(i)	*219	Linoleum and Coated Fabrics Industry (s)(i)(o)
**107	Process Cheese Manufacturers (s)	*221	Canvas Products Industry (s)(i)(o)
111	Fish Products Industry (s)(i)	*223	Cotton and Jute Bag Industry (s)(i)(o)
*112	Fruit and Vegetable Canners and Preservers (s)(i)(o)	**2291	Automobile Fabric Accessory Manufacturers (s)(i)
123	Feed Manufacturers (s)(i)	**2292	Embroidery, Pleating, Hemstitching Manufacturers (s)
*124	Flour Mills (s)(i)(o)	**2299	Miscellaneous Textiles Industry, n.e.s. (s)(i)(o)
125	Breakfast Cereal Manufacturers (s)(i)		
*128	Biscuit Manufacturers (s)(i)		
129	Bakeries (s)		<u>Major Group 6. Knitting Mills</u>
*131	Confectionery Manufacturers (s)(i)	*231	Hosiery Mills (s)(i)(o)
*133	Sugar Refineries (s)(i)	*239	Other Knitting Mills (s)(i)(o)
135	Vegetable Oil Mills (s)(i)(o)		
1391	Macaroni Manufacturers (s)(i)		<u>Major Group 7. Clothing Industries</u>
*1392	Miscellaneous Food Manufacturers (s)(i)	**2431	Men's Clothing Factories (s)(i)(o)
141	Soft Drink Manufacturers (s)	**2432	Men's Clothing Contractors (s)
143	Distilleries (s)(i)	**2441	Women's Clothing Factories (s)(i)(o)
*145	Breweries (s)(i)	**2442	Women's Clothing Contractors (s)
*147	Wineries (s)(i)	**245	Children's Clothing Industries (s)(i)(o)
	<u>Major Group 2. Tobacco Products Industries</u>	246	Fur Goods Industry (s)(i)
151	Leaf Tobacco Processing (s)(i)	247	Hat and Cap Industry (s)(i)(o)
153	Tobacco Products Manufacturers (s)(i)	*248	Foundation Garment Industry (s)(i)(o)
		2491	Fabric Glove Manufacturers (s)
		2499	Miscellaneous Clothing Industry, n.e.s. (s)
	<u>Major Group 3. Rubber Industries</u>		
*161	Rubber Footwear Manufacturers (s)(i)(o)		<u>Major Group 8. Wood Industries</u>
*163	Rubber Tire and Tube Manufacturers (s)(i)(o)	2511	Shingle Mills (s)
**169	Other Rubber Industries (s)(i)(o)	2513	Sawmills and Planing Mills (s)(i)(o)
		*252	Veneer and Plywood Mills (s)(i)(o)
	<u>Major Group 4. Leather Industries</u>	*2541	Sash, Door and Millwork Plants (s)(i)(o)
*172	Leather Tanneries (s)(i)(o)	2542	Hardwood Flooring (s)(i)(o)
*174	Shoe Factories (s)(i)(o)	256	Wooden Box Factories (s)(i)
175	Leather Glove Factories (s)	258	Coffin and Casket Industries (s)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

May shipments in the manufacturing industries were estimated at \$3,224 million, up \$158 million from the revised estimate of \$3,066 million for April. New orders for May also increased to \$3,161 million from \$3,027 million. However, after allowances were made for trading day and seasonal variation, both manufacturers' shipments and new orders in May dropped back 3.4 per cent from the estimates in April. Unfilled orders at the end of May, valued at \$3,792 million, were down 1.6 per cent from \$3,854 million at the end of April. Seasonally adjusted, the level of unfilled orders in May receded 1.0 per cent. Manufacturers' end-of-May inventories owned and inventories held rose slightly to \$6,645 million and \$7,032 million respectively from the levels in April. Total inventory held in May, after seasonal adjustment, showed a rise of 0.4 per cent with increases occurring mostly in goods in process and finished products.

Shipments of durable goods in the month of May were valued at 6.1 per cent higher than in April. More substantial gains in the transportation equipment industries, the primary metal industries, metal fabricating industries and the non-metallic mineral products industries were partly offset by decreases in the electrical products industries and the machinery industries. The 4.3 per cent increase in non-durable goods producers' shipments from April to May was mainly in the food and beverage, the paper and allied products and the petroleum and coal products industry groups. Shipments in the tobacco products industries declined rather substantially in May from a record high in April.

Total manufacturing shipments for the January - May period reached \$15,138 million, a gain of 1.7 per cent over the comparable estimate of \$14,882 million in 1966. Shipments of durable goods industries as a whole for the first five months of 1967 were estimated at \$6,888 million, almost unchanged from the corresponding period of last year; non-durable goods manufacturers' shipments increased 3.1 per cent to \$8,250 million in the same period. Eight of the 19 published major industry groups showed declines in the cumulative shipments to May in 1967 with relatively more pronounced decreases in the clothing industries (-12.7 per cent), the non-metallic mineral products industries (-7.6 per cent), the leather industries (-7.5 per cent), and the knitting mills (-6.3 per cent). Tobacco products industries, on the other hand, registered the highest relative increase in January - May shipments estimate in 1967 over 1966 (20.4 per cent).

At the preliminary estimate of \$1,425 million, new orders booked in durable goods industries during May were 4.4 per cent higher than in the previous month, but were still 6.4 per cent lower than in May of last year. Unfilled orders of durable goods manufacturers outstanding at the end of May dropped 1.8 per cent from the end of April as the new business generated in May, again, fell below the level of shipments.

Owned inventories of durable goods continued to increase slightly in May (0.5 per cent). Mixed moderate changes were reported in the major industry groups of durable goods category with the most noticeable rise shown in the primary metal industries. Non-durable goods producers' owned stocks in May were fractionally lower than their level in the previous month with much of the decrease occurring in finished products. The paper and allied products industries and the tobacco products industries accounted for most of the inventory decline with other major industry groups reporting little change in their inventory levels.

The manufacturers' owned inventories - shipments ratio decreased from 2.16 in April to 2.06 in May, and the ratio of finished products to shipments also dropped to 0.76 from 0.80.

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

S.I.C. Code	Major Group 1. Foods and Beverages	S.I.C. Code	Major Group 5. Textile Industries - Concluded
**1011	Slaughtering and Meat Packing Plants (s)(i)	211	Fibre Preparing Mills (s)(i)(o)
1012	Animal Oils and Fats Plants (s)	212	Thread Mills (s)(i)
**1013	Sausage and Sausage Casing Manufacturers (s)	*213	Cordage and Twine Industry (s)(i)
103	Poultry Processors	214	Narrow Fabric Mills (s)(i)(o)
**1051	Butter and Cheese Plants (s)(i)	215	Pressed and Punched Felt Mills (s)(i)(o)
**1053	Pasteurizing Plants (s)(i)	*216	Carpet, Mat and Rug Industry (s)(i)(o)
**1055	Condenseries (s)(i)	218	Textile Dyeing and Finishing Plants (s)(i)(o)
**1056	Ice Cream Manufacturers (s)(i)	*219	Linoleum and Coated Fabrics Industry (s)(i)(o)
**107	Process Cheese Manufacturers (s)	*221	Canvas Products Industry (s)(i)(o)
111	Fish Products Industry (s)(i)	*223	Cotton and Jute Bag Industry (s)(i)(o)
*112	Fruit and Vegetable Canners and Preservers (s)(i)(o)	**2291	Automobile Fabric Accessory Manufacturers (s)(i)
123	Feed Manufacturers (s)(i)	**2292	Embroidery, Pleating, Hemstitching Manufacturers (s)
*124	Flour Mills (s)(i)(o)	**2299	Miscellaneous Textiles Industry, n.e.s. (s)(i)(o)
125	Breakfast Cereal Manufacturers (s)(i)		
*128	Biscuit Manufacturers (s)(i)		
129	Bakeries (s)		
*131	Confectionery Manufacturers (s)(i)		
*133	Sugar Refineries (s)(i)		
135	Vegetable Oil Mills (s)(i)(o)	*231	Hosiery Mills (s)(i)(o)
1391	Macaroni Manufacturers (s)(i)	*239	Other Knitting Mills (s)(i)(o)
*1392	Miscellaneous Food Manufacturers (s)(i)		
141	Soft Drink Manufacturers (s)		
143	Distilleries (s)(i)		
*145	Breweries (s)(i)		
*147	Wineries (s)(i)		
	<u>Major Group 2. Tobacco Products Industries</u>		<u>Major Group 6. Knitting Mills</u>
151	Leaf Tobacco Processing (s)(i)		
153	Tobacco Products Manufacturers (s)(i)		
	<u>Major Group 3. Rubber Industries</u>		<u>Major Group 7. Clothing Industries</u>
**161	Rubber Footwear Manufacturers (s)(i)(o)	**2431	Men's Clothing Factories (s)(i)(o)
*163	Rubber Tire and Tube Manufacturers (s)(i)(o)	**2432	Men's Clothing Contractors (s)
**169	Other Rubber Industries (s)(i)(o)	**2441	Women's Clothing Factories (s)(i)(o)
	<u>Major Group 4. Leather Industries</u>	**2442	Women's Clothing Contractors (s)
*172	Leather Tanneries (s)(i)(o)	**245	Children's Clothing Industries (s)(i)(o)
*174	Shoe Factories (s)(i)(o)	246	Fur Goods Industry (s)(i)
175	Leather Glove Factories (s)	247	Hat and Cap Industry (s)(i)(o)
1792	Boot and Shoe Findings Manufacturers (s)	*248	Foundation Garment Industry (s)(i)(o)
1799	Miscellaneous Leather Products Manufacturers (s)	2491	Fabric Glove Manufacturers (s)
		2499	Miscellaneous Clothing Industry, n.e.s. (s)
	<u>Major Group 5. Textile Industries</u>		<u>Major Group 8. Wood Industries</u>
*183	Cotton Yarn and Cloth Mills (s)(i)(o)	2511	Shingle Mills (s)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

TREND SUMMARY

An increase of \$34 million in manufacturers' June shipments from the revised May estimate of \$3,263 million was a shade less than usual for the period. After seasonal adjustment the June figure was 0.1 per cent lower than a month earlier. New orders booked in June rose by \$88 million to a preliminary estimate of \$3,285 million or by 2.0 per cent on a seasonally adjusted basis. End-of-June unfilled orders dropped slightly from the previous month, but showed a small increase of 0.6 per cent after seasonal adjustment. Manufacturers' total inventory held in June was off 0.6 per cent to \$7,023 million with the substantial decline occurring in goods in process. Seasonally adjusted, manufacturing stocks showed a small build-up of 0.5 per cent in June.

Shipments for the first six months of 1967 were 1.8 per cent above the comparable estimate of last year, rising from \$18,150 million to \$18,475 million. Non-durable goods shipments for the same period rose 3.4 per cent. The highest relative increase was reported by the tobacco manufacturers (22.5 per cent) and the greatest decrease in the clothing industries (-11.1 per cent). Within the durable good industries which in total were almost unchanged in the period, increases in the transportation equipment industries (5.0 per cent) and the machinery industries (6.6 per cent) were offset by decreases in the primary metal industries (-4.8 per cent), the metal fabricating industries (-4.5 per cent) and the non-metallic mineral products industries (-8.3 per cent).

Returning to the June shipments, both durable and non-durable goods industry categories recorded one-month increases of 0.9 per cent and 1.2 per cent respectively. The major contributor to the \$34 million manufacturing shipments gain in June was the food and beverage industries which rose \$23 million or 3.7 per cent. Other large relative increases, mainly seasonal, were reported in the tobacco industries (11.0 per cent), the knitting mills (6.7 per cent) and the wood industries (6.6 per cent). Primary metal industries reported the most prominent shipments decline (-4.6 per cent) from \$259 million to \$247 million which was also 6.8 per cent below June 1966.

New orders received by durable goods manufacturers in June rose 3.8 per cent from May to \$1,484 million, but were lower than shipments for the third consecutive month. As a result, the backlog of unfilled orders receded again in June, continuing the gradual fall from the record high in March. At \$3,275 million, however, unfilled orders for durable goods at the end of June were still 7.3 per cent higher than at the same time last year and 2.17 times shipments compared with 1.99 times shipments in June 1966.

Inventories held by durable goods producers at the end of June dropped about \$30 million or 0.8 per cent to \$3,740 million from the level in May; a substantial decrease in goods in process more than offset the increase in finished products for the month. At \$3,365 million, owned durable goods stocks in June were also 0.3 per cent lower than in May but 6.3 per cent higher than in June of last year. Both machinery industries and transportation equipment industries reported sizable declines in goods in process from May to June. On the other hand, there was a significant build-up in stocks in the primary metal industries mostly in raw materials.

Manufacturers of non-durable goods also cut their stocks by 0.4 per cent from May to June, mainly in finished products. The level of owned stocks in June, however, was 6.6 per cent higher than in June 1966. A relatively substantial drop of

3.0 per cent in June stocks, chiefly in raw materials, was shown in the tobacco industries. Other noticeable decreases reported by the clothing and the chemical and chemical products industry groups were largely offset by increases in the paper and allied products industries and the petroleum and coal products industries.

Both ratios of manufacturers' owned inventories to shipments and finished products to shipments dropped to their seasonal lows of 2.02 and 0.75 respectively in June from the previous five months of the year. The average ratios in the January - June period, however, were above the average ratios for both the first six months of 1966 and for the year of 1966. Based on seasonally adjusted data these June ratios at 2.18 and 0.80 were, except for March, the highest since January 1967.

TABLE 3. Estimated Value of Shipments, Orders and Inventory in Manufacturing Industries grouped according to the Standard Industrial Classification

Durable

Includes Major Groups 8, 9, 12, 13, 14, 15, 16 and 17

Date	Shipments	Orders		Inventory at end of month					
		New orders received during month	Unfilled orders at end of month	Owned	Held but not owned	All inventory held			
						Total	Raw materials	Goods in process	Finished products
thousands of dollars

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

		3988	Typewriter Supplies Manufacturers (s)
		3989	Fountain Pen and Pencil Manufacturers (s)(i)(o)
		3993	Smokers' Supplies Manufacturers (s)
		3995	Stamp and Stencil (Rubber and Metal) Manufacturers (s)
		3996	Statuary, Art Goods, Regalia and Novelty Manufacturers (s)
		3997	Umbrella Manufacturers (s)
		3998	Artificial Ice Manufacturers (s)
		3999	Other Miscellaneous Industries (s)(i)(o)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

MILLIONS OF DOLLARS
7,200

MILLIONS OF DOLLARS
7,200

TREND SUMMARY

The preliminary estimates of manufacturers' shipments and new orders in July were less than seasonally down to \$2,913 million and \$2,972 million respectively from the revised estimates of \$3,314 million and \$3,319 million in June. After allowance for seasonal influence, July shipments showed a significant increase of 2.0 per cent over the previous month while new orders advanced sharply by 4.7 per cent. The backlog of unfilled orders at the end of July, seasonally adjusted, also rose substantially by 3.3 per cent to a record high of \$3,877 million in the year. At the preliminary estimate of \$7,058 million, total inventory held by manufacturers at the end of July, was slightly higher than at the end of June. Seasonally adjusted the estimate of inventories held in July was up 1.5 per cent with the largest accumulation occurring in goods in process.

Total manufacturing shipments for the January - July period amounted to \$21,405 million, a gain of 2.1 per cent over the same period of last year. Shipments of non-durable goods for the first seven months also rose 3.8 per cent while durable goods industries recorded very little change.

All major manufacturing industry groups reported decreases in July shipments except the knitting mills, the clothing industries and the petroleum and coal products industries, reflecting chiefly the pattern of seasonal variation. Both durable and non-durable goods manufacturing groups showed seasonal declines of 18.1 per cent and 7.0 per cent respectively. The most substantial decrease in July shipments was shown in the transportation equipment industries where a drop of 33.1 per cent can be attributed almost entirely to the seasonally low shipments in the motor vehicle and the parts and accessories industry groups. Other relatively large decreases were shown in the machinery industries (-18.2 per cent), the textile industries (-16.3 per cent), the chemical and chemical products industries (-15.7 per cent) and the electrical products industries (-14.9 per cent).

New orders received by both durable and non-durable goods manufacturers in July were 13.3 per cent and 8.1 per cent lower than in the previous month but 7.7 per cent and 6.8 per cent above the July estimates of last year. A sharp rise in the backlog of orders in the transportation equipment industries was mainly responsible for a 2.0 per cent increase in total unfilled orders in durable goods industries, and the higher backlog in durable goods industries accounted for the increase in the estimated backlog for all manufacturing.

The level of total inventory owned by manufacturers at the end of July rose slightly by 0.1 per cent, and by 1.2 per cent after seasonal adjustment. Substantial increases in owned inventories in the paper and allied products industries (6.8 per cent) and in primary metal industries (2.9 per cent) were greatly offset by reductions in the inventory levels in other major industry groups, particularly in the machinery industries (-2.3 per cent), the transportation equipment (-1.5 per cent) and the tobacco industries (-2.1 per cent).

Stocks held and owned by non-durable goods producers were up 0.6 per cent in July; a 1.7 per cent gain in raw materials outweighed small decreases in goods in process and finished products. Inventory holdings of durable goods industries in July were 0.2 per cent higher than in June. After deduction of stocks held but not owned in the month, owned inventories of durable goods showed a drop of 0.3 per cent.

In July, both manufacturers' ratios of inventories owned to shipments and finished products to shipments increased seasonally to 2.28 and 0.85 respectively from 2.00 and 0.75 in June. On a seasonally adjusted basis, the ratios for July were slightly lower at 2.15 and 0.79 compared with 2.17 and 0.80 for June.

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

		3998	Artificial Ice Manufacturers (s)
		3999	Other Miscellaneous Industries (s)(i)(o)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

Manufacturing shipments in August rose 6.0 per cent to \$3,073 million from \$2,898 million in July, and 1.2 per cent after seasonal adjustment. New orders received by manufacturers for August were up 4.2 per cent from the previous month, while the backlog of orders at the end of the month recorded a fractional increase. On a seasonally adjusted basis, however, both new orders and unfilled orders in August were down 3.9 per cent and 1.2 per cent respectively from July. Manufacturers' stocks held at the end of August rose 1.2 per cent from July and 0.2 per cent seasonally adjusted; increases in raw materials and goods in process were partly offset by a drop in finished products.

At the total estimate of \$24,463 million, manufacturing shipments from January to August were \$514 million, or 2.1 per cent higher than the comparable estimate of last year. Non-durable goods industries as a whole accounted for a much larger portion of the gain during the period. More than two-thirds of the shipments increase in August was also attributed to non-durable goods.

All major industry groups of non-durable goods reported advances in August shipments with the largest absolute gain of \$30 million recorded in the paper and allied products industries. Shipments in the leather and the clothing industries, estimated at \$38 million and \$106 million respectively in August, showed substantial seasonal increases of 38.6 per cent and 27.7 per cent over July, but were lower than the August estimate of last year. Textile industries also reported a sizable increase of 15.4 per cent in August from July, chiefly the result of seasonal influence. In durable goods industries, increases in many industry groups, ranging from 3.4 per cent to 15.4 per cent, were partly offset by decreases in the machinery industries and the transportation equipment industries. Although transportation equipment manufacturers' shipments in August were down 9.6 per cent to \$273 million from July, they were up 38.4 per cent from August a year earlier, reflecting mainly a less than seasonal drop in August shipments in the motor vehicle and the parts and accessories industries.

The increase in manufacturers' new orders from \$2,952 million in July to \$3,077 million in August occurred largely in non-durable goods industries where a rise of 6.6 per cent was reported. New orders received by durable goods producers in August reached \$1,314 million, 1.2 per cent above the preceding month but 4.8 per cent behind the estimate in August 1966. Durable goods industries also reported a small increase in backlog of orders to \$3,377 million at the end of August which was also 6.5 per cent higher than the level of last year.

Manufacturers' owned inventories were up again in August, rising 1.0 per cent to \$6,741 million from \$6,672 million with the increase evenly distributed between durable and non-durable goods industries. Seasonally adjusted, total inventory owned in August increased slightly by 0.3 per cent, continuing the upward trend started in March.

The increase in durable goods inventory holdings in August was due primarily to a large seasonal build-up of goods in process inventory in the motor vehicle industries, which was also reflected in the transportation equipment industry group. Substantial rises in the stocks of raw materials and finished goods of the food and beverage industries and the paper and allied products industries accounted for an overall increase in the stocks of non-durable goods manufacturers.

In August, ratios of manufacturers' owned inventories to shipments and finished products to shipments were down to 2.19 and 0.80 respectively from the seasonal high of 2.30 and 0.85 in July. Seasonally adjusted, the ratios for August showed only slight decreases at 2.15 and 0.79 from 2.17 and 0.80 of the month earlier.

TABLE 1. Estimated Value of Shipments in All Manufacturing Industries, by Province of Origin

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

		3998	Artificial Ice Manufacturers (s)
		3999	Other Miscellaneous Industries (s)(i)(o)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

At the preliminary estimates of \$3,253 million and \$3,181 million, manufacturers' shipments and new orders in September advanced more than seasonally from the revised August estimates of \$3,088 million and \$3,069 million respectively. With a seasonally adjusted increase of 0.6 per cent the value of shipments was higher than that of the previous month for the fourth consecutive month. Manufacturers' new orders booked during September, seasonally adjusted, were 2.8 per cent above the estimate for August but unfilled orders, dropping \$72 million to \$3,756 million during the month were fractionally lower after adjustment for seasonal influences. Total manufacturing inventory holdings in September dropped to \$7,105 million from the new high level of \$7,157 million in August, with all components showing decreases and with half of the decline occurring in inventory held but not owned. Seasonally adjusted, the estimate of stocks owned by manufacturers at the end of September was off 0.6 per cent from the previous month after rising steadily for the previous six months.

More than nine-tenths of the 5.3 per cent increase in manufacturing shipments in September originated in durable goods industries (11.6 per cent). Substantial advances, mainly reflecting the usual seasonal pattern, were recorded in the transportation equipment industries (39.9 per cent) and the electrical products industries (19.2 per cent). At the estimate of \$104 million, machinery manufacturers also reported a sizable rise of 10.6 per cent from August but still 7.7 per cent lower than in September 1966. Within non-durable goods manufacturing, which rose only 0.7 per cent from August to September, changes among the major industry groups were rather offsetting. Relatively more noticeable increases were shown in rubber, chemical and chemical products, and miscellaneous industries, and decreases recorded in the tobacco products and clothing industries.

Total manufacturing shipments from January to the end of September this year reached \$27,731 million, 2.2 per cent ahead of the \$27,143 million estimate of last year. For the same nine-month period, the largest gain in shipments was in the tobacco products (20.7 per cent) and transportation equipment (10.6 per cent) industry groups, while the more prominent declines appeared in the clothing industries (-10.4 per cent) and the non-metallic mineral products industries (-10.1 per cent).

New orders received by durable goods manufacturers amounted to \$1,383 million in September, 6.2 per cent higher than the estimate for August and 2.0 per cent above September a year earlier. Unfilled orders in the durable goods industries for September receded 1.9 per cent to \$3,290 million from \$3,355 million in the previous month. This decrease in the backlogs of durable goods, accounting for about 90 per cent of the total manufacturing backlogs decline in the month, was attributable largely to the substantial falls in the primary metal and the transportation equipment industries.

More than three quarter of the 0.7 per cent decrease in total manufacturing inventories held in September occurred in the durable goods industries which reported a decline of 1.2 per cent with decreases showing in all the three inventory components. The drop in their goods in process inventory, however, reflected almost entirely the fall in stocks held but not owned. In the non-durable goods manufacturing, a drop in raw materials slightly outweighed increases in goods in process and finished products.

Except for the foods and beverages, the paper and allied products, the primary metal, and the transportation equipment industries, all major industry groups reported decreases in owned stocks from August to September. Tobacco products manufacturers reported the largest relative decline of 4.1 per cent to 195 million but this was, nonetheless, 22.5 per cent above the level at the same time last year.

In terms of contribution, other substantial decreases in the metal fabricating and electrical products industries were offset by increases in the foods and beverages and the transportation equipment industries.

Ratios of manufacturers' owned inventories to shipments and finished products to shipments declined to 2.06 and 0.75 in September from 2.18 and 0.80 respectively in August. Seasonally adjusted ratios at 2.11 and 0.77 were also slightly down from those of the previous month.

TABLE 1. Estimated Value of Shipments in All Manufacturing Industries, by Province of Origin

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

S.I.C. Code	Major Group 1. Foods and Beverages	S.I.C. Code	Major Group 5. Textile Industries - Concluded
**1011	Slaughtering and Meat Packing Plants (s)(i)	211	Fibre Preparing Mills (s)(i)(o)
1012	Animal Oils and Fats Plants (s)	212	Thread Mills (s)(i)
**1013	Sausage and Sausage Casing Manufacturers (s)	*213	Cordage and Twine Industry (s)(i)
103	Poultry Processors	214	Narrow Fabric Mills (s)(i)(o)
**1051	Butter and Cheese Plants (s)(i)	215	Pressed and Punched Felt Mills (s)(i)(o)
**1053	Pasteurizing Plants (s)(i)	*216	Carpet, Mat and Rug Industry (s)(i)(o)
**1055	Condenseries (s)(i)	218	Textile Dyeing and Finishing Plants (s)(i)(o)
**1056	Ice Cream Manufacturers (s)(i)	*219	Linoleum and Coated Fabrics Industry (s)(i)(o)
**107	Process Cheese Manufacturers (s)	*221	Canvas Products Industry (s)(i)(o)
111	Fish Products Industry (s)(i)	*223	Cotton and Jute Bag Industry (s)(i)(o)
*112	Fruit and Vegetable Cannery and Preservers (s)(i)(o)	**2291	Automobile Fabric Accessory Manufacturers (s)(i)
123	Feed Manufacturers (s)(i)	**2292	Embroidery, Pleating, Hemstitching Manufacturers (s)
*124	Flour Mills (s)(i)(o)	**2299	Miscellaneous Textiles Industry, n.e.s. (s)(i)(o)
125	Breakfast Cereal Manufacturers (s)(i)		
*128	Biscuit Manufacturers (s)(i)		
129	Bakeries (s)		
*131	Confectionery Manufacturers (s)(i)		
*133	Sugar Refineries (s)(i)		
135	Vegetable Oil Mills (s)(i)(o)	*231	Hosiery Mills (s)(i)(o)
1391	Macaroni Manufacturers (s)(i)	*239	Other Knitting Mills (s)(i)(o)
*1392	Miscellaneous Food Manufacturers (s)(i)		
141	Soft Drink Manufacturers (s)		
143	Distilleries (s)(i)		
*145	Breweries (s)(i)		
*147	Wineries (s)(i)		
	<u>Major Group 2. Tobacco Products Industries</u>		<u>Major Group 6. Knitting Mills</u>
151	Leaf Tobacco Processing (s)(i)		
153	Tobacco Products Manufacturers (s)(i)		
	<u>Major Group 3. Rubber Industries</u>		<u>Major Group 7. Clothing Industries</u>
**161	Rubber Footwear Manufacturers (s)(i)(o)	**2431	Men's Clothing Factories (s)(i)(o)
*163	Rubber Tire and Tube Manufacturers (s)(i)(o)	**2432	Men's Clothing Contractors (s)
**169	Other Rubber Industries (s)(i)(o)	**2441	Women's Clothing Factories (s)(i)(o)
	<u>Major Group 4. Leather Industries</u>	**2442	Women's Clothing Contractors (s)
*172	Leather Tanneries (s)(i)(o)	**245	Children's Clothing Industries (s)(i)(o)
*174	Shoe Factories (s)(i)(o)	246	Fur Goods Industry (s)(i)
175	Leather Glove Factories (s)	247	Hat and Cap Industry (s)(i)(o)
1792	Boot and Shoe Findings Manufacturers (s)	*248	Foundation Garment Industry (s)(i)(o)
1799	Miscellaneous Leather Products Manufacturers (s)	2491	Fabric Glove Manufacturers (s)
		2499	Miscellaneous Clothing Industry, n.e.s. (s)
	<u>Major Group 5. Textile Industries</u>		<u>Major Group 8. Wood Industries</u>
*183	Cotton Yarn and Cloth Mills (s)(i)(o)	2511	Shingle Mills (s)
*193	Wool Yarn Mills (s)(i)(o)	2513	Sawmills and Planing Mills (s)(i)(o)
*197	Wool Cloth Mills (s)(i)(o)	*252	Veneer and Plywood Mills (s)(i)(o)
*201	Synthetic Textile Mills (s)(i)(o)	*2541	Sash, Door and Millwork Plants (s)(i)(o)
		2542	Hardwood Flooring (s)(i)(o)
		256	Wooden Box Factories (s)(i)
		258	Coffin and Casket Industries (s)
		2591	Wood Preservation (s)(i)
		2592	Wood Handles and Turning (s)(i)(o)
		2599	Miscellaneous Wood Industries, n.e.s. (s)(i)(o)
			<u>Major Group 9. Furniture and Fixture Industries</u>
		261	Household Furniture Industry (s)(i)(o)
		264	Office Furniture Industry (s)(i)(o)
		266	Other Furniture Industries (s)(i)(o)
		268	Electric Lamp and Shade Industry (s)

S.I.C. Code	Major Group 10. Paper and Allied Industries	S.I.C. Code	Major Group 16. Electrical Products Industries - Concluded
*271	Pulp and Paper Mills (s)(i)(o)	*338	Manufacturers of Electric Wire and Cable (s)(i)(o)
*272	Asphalt Roofing Manufacturers (s)(i)(o)	*339	Manufacturers of Miscellaneous Electrical Products (s)(i)(o)
**2731	Folding Box and set-up Box Manufacturers (s)(i)(o)		
**2732	Corrugated Box Manufacturers (s)(i)(o)		
**2733	Paper Bag Manufacturers (s)(i)(o)		
*274	Other Paper Converters (s)(i)(o)		
	<u>Major Group 11. Printing, Publishing and Allied Industries</u>		<u>Major Group 17. Non-Metallic Mineral Products Industries</u>
286	Commercial Printing (s)	**341	Cement Manufacturers (s)(i)(o)
287	Plate Making (including Engraving) Typesetting and Bookbinding for the Trade (s)	343	Lime Manufacturers (s)
288	Publishing Only (s)	345	Gypsum Products Manufacturers (s)
289	Printing and Publishing (s)	**347	Concrete Products Manufacturers (s)(i)(o)
	<u>Major Group 12. Primary Metal Industries</u>	**348	Ready-Mix Concrete Manufacturers (s)(i)
*291	Iron and Steel Mills (s)(i)(o)	3511	Clay Products Manufacturers (from domestic clays) (s)(i)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

The value of manufacturers' shipments in October at \$3,268 million was slightly higher than the estimate of \$3,259 million for September, while new orders received during October increased substantially from \$3,150 million to \$3,287 million. However, after allowances were made for trading-day and seasonal influences, October shipments dropped 3.0 per cent after rising steadily during the preceding four months; the value of new orders seasonally adjusted was also down slightly by 0.1 per cent. The backlog of unfilled orders at the end of October rose 0.5 per cent to \$3,737 million from the end of September, and also rose 1.3 per cent to \$3,808 million after seasonal adjustment. Total manufacturing inventory holdings reached \$7,131 million at the end of October, marginally up from \$7,125 million of the previous month. Seasonally adjusted total inventory holdings were 0.1 per cent down; an increase in raw materials was slightly more than offset by decreases in goods in process and finished products.

At the cumulative estimate of \$31,006 million, manufacturing shipments from January to October remained at 2.2 per cent higher than in the same period of last year. The cumulative shipments for both durable and non-durable manufacturing groups in the first ten months showed 0.9 per cent and 3.2 per cent respectively above the corresponding estimates of last year. The small increase in October shipments, before adjustment for trading-day and seasonal factors, was rather evenly reflected in durable and non-durable goods categories.

In October, relatively more significant increases in shipments were reported in the rubber industries (5.9 per cent) and the petroleum and coal products industries (6.3 per cent). In terms of contribution, other marked gains were also recorded in the transportation equipment (3.6 per cent) and the primary metal (4.8 per cent) industries. These rises in October were, to a great extent, offset by decreases in many other industry groups, especially in the electrical products (-6.2 per cent) and the clothing (-9.7 per cent) industries.

New orders received by durable goods manufacturers in October rose 9.3 per cent to \$1,481 million from \$1,355 million in the previous month, and 4.7 per cent from \$1,415 million in October 1966. Unfilled orders of durable goods in October edged up 0.7 per cent from September. The most substantial actual value increases in new orders and unfilled orders for the month occurred in the shipbuilding and the railroad rolling stock industries within the transportation equipment group of industries.

Manufacturers' owned inventories in October were fractionally higher than those of the previous month, but fell 0.3 per cent after seasonal adjustment. Owned stocks of durable goods were down 0.5 per cent in October with decreases occurring mainly in finished products and raw materials. Non-durable goods industries on the other hand, reported a small rise of 0.6 per cent in owned stocks with the largest increase in raw materials.

Based on the preliminary estimate, without seasonal adjustment, fourteen major industry groups recorded decreases in owned inventories in October with relatively more noticeable drops showing in the tobacco (-4.2 per cent) and the leather (-3.3 per cent) industries. These decreases, however, were slightly over balanced by the substantial increases in the foods and beverages (2.3 per cent), the paper and allied products (4.1 per cent) and the primary metal (2.2 per cent) industry groups.

The ratio of manufacturers' owned inventories to shipments in October stayed at 2.06 as in the previous month, while that of finished products to shipments dropped slightly from 0.76 to 0.75. Based on seasonally adjusted data, these ratios for October were up to 2.17 and 0.80 from 2.11 and 0.78 respectively in September.

TABLE 4. Estimated Value of Shipments, Orders, and Inventories in Selected Individual Industries - Concluded

Industry	1966				1967									Oct. P
	Oct.	Nov.	Dec.	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.		
thousands of dollars														
MISCELLANEOUS MANUFACTURING INDUSTRIES														
Scientific and professional equipment manu- facturers:(11)														
Shipments	23,226	26,314	24,736	22,179	23,167	25,710	24,084	28,891	28,513	26,282	26,440	29,295	26,465	
Total inventory held	72,744	75,889	75,179	77,733	79,901	81,250	84,362	84,800	83,868	84,421	84,333	80,279	80,823	
Jewellery and silver manufacturers:														
Shipments	10,940	10,068	7,885	7,296	7,903	9,429	8,379	8,180	6,862	4,959	7,640	8,327	7,894	
Total inventory owned	28,098	27,574	28,076	29,755	30,313	29,267	29,030	31,296	32,014	33,230	31,688	30,993	30,956	
Broom, brush and mop industry:														
Shipments	2,916	2,741	2,297	2,434	2,496	2,803	2,821	2,735	2,792	2,459	2,741	2,737	2,964	
Total inventory owned	9,019	9,359	9,635	9,525	9,561	9,733	9,430	9,503	9,615	9,714	9,556	9,587	9,706	
Raw materials	4,138	4,332	4,484	4,326	4,269	4,425	4,456	4,388	4,466	4,636	4,508	4,476	4,576	
Goods in process	1,093	1,015	984	1,012	1,056	1,007	992	1,001	1,039	1,073	1,071	1,074	1,075	
Finished products	3,788	4,012	4,167	4,187	4,236	4,301	3,982	4,114	4,110	4,005	3,977	4,037	4,055	
(11) Includes instrument and related products manufacturers, clock and watch manufacturers, orthopedic and surgical appliance manufacturers, ophthalmic goods manufacturers and dental laboratories.														

(11) Includes instrument and related products manufacturers, clock and watch manufacturers, orthopedic and surgical appliance manufacturers, ophthalmic goods manufacturers and dental laboratories.

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

S.I.C. Code	Major Group 1. Foods and Beverages	S.I.C. Code	Major Group 5. Textile Industries - Concluded
**1011	Slaughtering and Meat Packing Plants (s)(i)	211	Fibre Preparing Mills (s)(i)(o)
1012	Animal Oils and Fats Plants (s)	212	Thread Mills (s)(i)
**1013	Sausage and Sausage Casing Manufacturers (s)	*213	Cordage and Twine Industry (s)(i)
103	Poultry Processors	214	Narrow Fabric Mills (s)(i)(o)
**1051	Butter and Cheese Plants (s)(i)	215	Pressed and Punched Felt Mills (s)(i)(o)
**1053	Pasteurizing Plants (s)(i)	*216	Carpet, Mat and Rug Industry (s)(i)(o)
**1055	Condenseries (s)(i)	218	Textile Dyeing and Finishing Plants (s)(i)(o)
**1056	Ice Cream Manufacturers (s)(i)	*219	Linoleum and Coated Fabrics Industry (s)(i)(o)
*107	Process Cheese Manufacturers (s)	*221	Canvas Products Industry (s)(i)(o)
111	Fish Products Industry (s)(i)	*223	Cotton and Jute Bag Industry (s)(i)(o)
*112	Fruit and Vegetable Canners and Preservers (s)(i)(o)	**2291	Automobile Fabric Accessory Manufacturers (s)(i)
123	Feed Manufacturers (s)(i)	**2292	Embroidery, Pleating, Hemstitching Manufacturers (s)
*124	Flour Mills (s)(i)(o)	**2299	Miscellaneous Textiles Industry, n.e.s. (s)(i)(o)
125	Breakfast Cereal Manufacturers (s)(i)		
*128	Biscuit Manufacturers (s)(i)		
129	Bakeries (s)		
*131	Confectionery Manufacturers (s)(i)		
*133	Sugar Refineries (s)(i)		
135	Vegetable Oil Mills (s)(i)(o)	*231	Hosiery Mills (s)(i)(o)
1391	Macaroni Manufacturers (s)(i)	*239	Other Knitting Mills (s)(i)(o)
*1392	Miscellaneous Food Manufacturers (s)(i)		
141	Soft Drink Manufacturers (s)		
143	Distilleries (s)(i)		
*145	Breweries (s)(i)		
*147	Wineries (s)(i)		
	<u>Major Group 2. Tobacco Products Industries</u>		<u>Major Group 6. Knitting Mills</u>
151	Leaf Tobacco Processing (s)(i)		
153	Tobacco Products Manufacturers (s)(i)		
	<u>Major Group 3. Rubber Industries</u>		<u>Major Group 7. Clothing Industries</u>
**161	Rubber Footwear Manufacturers (s)(i)(o)	**2431	Men's Clothing Factories (s)(i)(o)
*163	Rubber Tire and Tube Manufacturers (s)(i)(o)	**2432	Men's Clothing Contractors (s)
**169	Other Rubber Industries (s)(i)(o)	**2441	Women's Clothing Factories (s)(i)(o)
	<u>Major Group 4. Leather Industries</u>	**2442	Women's Clothing Contractors (s)
*172	Leather Tanneries (s)(i)(o)	**245	Children's Clothing Industries (s)(i)(o)
*174	Shoe Factories (s)(i)(o)	246	Fur Goods Industry (s)(i)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

The preliminary estimate of manufacturers' shipments in November reached \$3,306 million, an increase of \$22 million over the revised estimate for October. After adjustment for trading-day and seasonal influences, November shipments showed a rise of 1.5 per cent from \$3,122 million to \$3,170 million. The value of new orders booked during November which fell \$30 million from October to \$3,278 million was less than the value of shipments for the month. Consequently, the backlog of orders in November also dropped \$28 million to the preliminary estimate of \$3,715 million. Seasonally adjusted, both estimates of new orders and unfilled orders in November were slightly down from the previous month. Manufacturers' November owned inventories edged up slightly by 0.2 per cent, or 0.5 per cent seasonally adjusted, following decreases in the past two months. Inventory holdings of goods in process and finished products in November, seasonally adjusted, rose over one per cent while raw materials fell fractionally.

Total manufacturing shipments for the January-November period in 1967 amounted to \$34,328 million, 2.1 per cent higher than the corresponding period a year earlier, with about 78 per cent of the rise occurring in the non-durable goods industries. This increase in manufacturing shipments was rather low compared with the 9.8 per cent and 8.5 per cent recorded in the same period of 1966 and 1965 respectively.

November shipments of non-durable goods showed a decline of \$41 million from October, attributable mainly to the decreases in the foods and beverages, the chemical and chemical products, and the rubber industries. Durable goods manufacturers on the other hand, reported a total gain of \$63 million, or 4.3 per cent in shipments, to a new record in 1967 of \$1,525 million; decreases in many industry groups were more than offset by the substantial increases in the transportation equipment industries (\$71 million) and the primary metal industries (\$14 million). In the transportation equipment industries, the significant increase in shipments from October to November was caused chiefly by the motor vehicle and the parts and accessories industries which reported large seasonal rises. Manufacturers of copper and alloy rolling, casting and extruding products also showed a substantial \$8 million or 39.2 per cent increase in November shipments, and was the main reason for a 5.4 per cent gain in the primary metals industry group.

New orders received by durable goods industries in November were up just 0.8 per cent from the month before; this small increase was outweighed by a substantial drop in the non-durable goods industries. Outstanding orders of durable goods were off 0.7 per cent to \$3,264 million at the end of November, representing 2.14 times the value of shipments for the month.

November inventories owned by durable goods producers remained at about the October level. Inventory changes among the several industry groups largely offset each other in November. Owned stocks in non-durable goods industries, however, showed a small rise of 0.3 per cent; more prominent accumulations were recorded in the tobacco industries and the miscellaneous manufacturing industries.

Manufacturer - owned inventories were equal to 2.03 times, or after seasonal adjustment, 2.13 times the value of shipments for the month. The comparable ratios for October were 2.04 and 2.16. The ratio of finished products inventory to shipments remained at 0.74, unchanged from October; the ratio based on the seasonally adjusted estimates was 0.78, compared with 0.79 in the previous month.

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

<u>S.I.C. Code</u>	<u>Major Group 1. Foods and Beverages</u>	<u>S.I.C. Code</u>	<u>Major Group 5. Textile Industries - Concluded</u>
**1011	Slaughtering and Meat Packing Plants (s)(i)	211	Fibre Preparing Mills (s)(i)(o)
1012	Animal Oils and Fats Plants (s)	212	Thread Mills (s)(i)
**1013	Sausage and Sausage Casing Manufacturers (s)	*213	Cordage and Twine Industry (s)(i)
103	Poultry Processors	214	Narrow Fabric Mills (s)(i)(o)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

With the December total at \$3,156 million, the preliminary estimate of the value of Canadian manufacturers' shipments for 1967 was \$37,484 million, up 2.1 per cent from the 1966 total. Similar estimates for a year earlier showed there had been 9.2 per cent increase in this value from 1965 to 1966.

The preliminary 1967 totals revealed relatively large increases in shipments of 19.1 per cent in the tobacco industries, 10.4 per cent in the transportation equipment industries and 7.2 per cent in the miscellaneous manufacturing group. On the other hand, the year-end total was 8.6 per cent lower in the clothing industries, 8.1 per cent down in the non-metallic industries and 5.7 per cent lower in the metal fabricating industry group.

December shipments were lower than in November, but after adjustment for trading day and seasonal variation, the figure indicated an increase in the month of 2.3 per cent. The dollar value of new orders showed a less-than seasonal \$96 million drop from November to December and, after seasonal and trading day adjustment, was estimated to be 6.1 per cent higher than the previous month. Unfilled orders, seasonally adjusted, were 1.8 per cent up by the year end from their November level.

End-of-December total inventory owned and inventory held by manufacturers rose very slightly to the preliminary estimates of \$6,739 million and \$7,120 million respectively; a seasonal increase in raw materials was largely offset by decreases in goods in process and finished products. On the other hand, seasonally adjusted total inventory holdings in December were down 1.3 per cent from the level of the previous month with decreases showing in all three components; a large decrease in goods in process was caused mainly by a drop in inventory held but not owned.

The ratios of total inventory owned to shipments and finished products to shipments were seasonally high at 2.14 and 0.77 respectively in December compared with 2.03 and 0.74 in November. However, based on seasonally adjusted estimates, the December ratios were 2.07 and 0.76, down from 2.13 and 0.78 in the previous month.

Shipments of durable goods in December showed a decrease of \$60 million, to bring the total shipments for the year to \$16,857 million, 1.0 per cent higher than in 1966. Six out of eight of the durable goods industry groups showed declines, mainly seasonal, with more significant decreases occurring in the wood and the non-metallic minerals products industries. Most non-durable goods industry groups contributed to an over-all seasonal drop of \$91 million in December. However, the petroleum and coal products industries and the tobacco industries recorded marked seasonal rises.

The decrease in the December estimate of new orders, without seasonal adjustment, was largely in non-durable manufactured products which showed a drop of 4.2 per cent from November. Unfilled orders of durable goods, estimated at \$3,205 million in December were down \$21 million from November and were \$45 million below the level of December 1966.

Owned inventories of both durable and non-durable goods manufacturers, without seasonal adjustment, rose slightly by 0.2 per cent in December with the rise reflected only in raw materials. Most major industry groups indicated small to moderate increases and these were largely offset by decreases in other industry groups, mainly reflecting seasonal changes.

INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups are listed below.

A single asterisk (*) preceding the individual industry title indicates that the industry is shown separately in Table 4 - Statistics for Selected Individual Industries.

A double asterisk (**) preceding the individual industry title indicates that the industry is shown in Table 4 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The three digit number preceding the individual industry title indicates the S.I.C. group code.

The four digit number preceding the individual industry title indicates the S.I.C. sub group code.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates.

STANDARD INDUSTRIAL CLASSIFICATION

Industrial Groupings shown in Tables 3 and 5

S.I.C. Code	Major Group 1. Foods and Beverages	S.I.C. Code	Major Group 5. Textile Industries - Concluded
**1011	Slaughtering and Meat Packing Plants (s)(i)	211	Fibre Preparing Mills (s)(i)(o)
1012	Animal Oils and Fats Plants (s)	212	Thread Mills (s)(i)
**1013	Sausage and Sausage Casing Manufacturers (s)	*213	Cordage and Twine Industry (s)(i)
103	Poultry Processors	214	Narrow Fabric Mills (s)(i)(o)
**1051	Butter and Cheese Plants (s)(i)	215	Pressed and Punched Felt Mills (s)(i)(o)
**1053	Pasteurizing Plants (s)(i)	*216	Carpet, Mat and Rug Industry (s)(i)(o)
**1055	Condenseries (s)(i)	218	Textile Dyeing and Finishing Plants (s)(i)(o)
**1056	Ice Cream Manufacturers (s)(i)	*219	Linoleum and Coated Fabrics Industry (s)(i)(o)
**107	Process Cheese Manufacturers (s)	*221	Canvas Products Industry (s)(i)(o)
111	Fish Products Industry (s)(i)	*223	Cotton and Jute Bag Industry (s)(i)(o)
*112	Fruit and Vegetable Canners and Preservers (s)(i)(o)	**2291	Automobile Fabric Accessory Manufacturers (s)(i)
123	Feed Manufacturers (s)(i)	**2292	Embroidery, Pleating, Hemstitching Manufacturers (s)
*124	Flour Mills (s)(i)(o)	**2299	Miscellaneous Textiles Industry, n.e.s. (s)(i)(o)
125	Breakfast Cereal Manufacturers (s)(i)		
*128	Biscuit Manufacturers (s)(i)		
129	Bakeries (s)		<u>Major Group 6. Knitting Mills</u>
*131	Confectionery Manufacturers (s)(i)	*231	Hosiery Mills (s)(i)(o)
*133	Sugar Refineries (s)(i)	*239	Other Knitting Mills (s)(i)(o)
135	Vegetable Oil Mills (s)(i)(o)		
1391	Macaroni Manufacturers (s)(i)		<u>Major Group 7. Clothing Industries</u>
*1392	Miscellaneous Food Manufacturers (s)(i)	**2431	Men's Clothing Factories (s)(i)(o)
141	Soft Drink Manufacturers (s)	**2432	Men's Clothing Contractors (s)
143	Distilleries (s)(i)	**2441	Women's Clothing Factories (s)(i)(o)
*145	Breweries (s)(i)	**2442	Women's Clothing Contractors (s)
*147	Wineries (s)(i)	**245	Children's Clothing Industries (s)(i)(o)
	<u>Major Group 2. Tobacco Products Industries</u>	246	Fur Goods Industry (s)(i)
151	Leaf Tobacco Processing (s)(i)	247	Hat and Cap Industry (s)(i)(o)
153	Tobacco Products Manufacturers (s)(i)	*248	Foundation Garment Industry (s)(i)(o)
		2491	Fabric Glove Manufacturers (s)
		2499	Miscellaneous Clothing Industry, n.e.s. (s)
	<u>Major Group 3. Rubber Industries</u>		<u>Major Group 8. Wood Industries</u>
**161	Rubber Footwear Manufacturers (s)(i)(o)	2511	Shingle Mills (s)
*163	Rubber Tire and Tube Manufacturers (s)(i)(o)	2513	Sawmills and Planing Mills (s)(i)(o)
**169	Other Rubber Industries (s)(i)(o)	*252	Veneer and Plywood Mills (s)(i)(o)
	<u>Major Group 4. Leather Industries</u>	*2541	Sash, Door and Millwork Plants (s)(i)(o)
*172	Leather Tanneries (s)(i)(o)	2542	Hardwood Flooring (s)(i)(o)
*174	Shoe Factories (s)(i)(o)	256	Wooden Box Factories (s)(i)
175	Leather Glove Factories (s)	258	Coffin and Casket Industries (s)
1792	Boot and Shoe Findings Manufacturers (s)	2591	Wood Preservation (s)(i)
1799	Miscellaneous Leather Products Manufacturers (s)	2592	Wood Handles and Turning (s)(i)(o)
		2599	Miscellaneous Wood Industries, n.e.s. (s)(i)(o)
	<u>Major Group 5. Textile Industries</u>		<u>Major Group 9. Furniture and Fixture Industries</u>
*183	Cotton Yarn and Cloth Mills (s)(i)(o)	261	Household Furniture Industry (s)(i)(o)
*193	Wool Yarn Mills (s)(i)(o)	264	Office Furniture Industry (s)(i)(o)
*197	Wool Cloth Mills (s)(i)(o)	266	Other Furniture Industries (s)(i)(o)
*201	Synthetic Textile Mills (s)(i)(o)	268	Electric Lamp and Shade Industry (s)

S.I.C. Code	Major Group 10. Paper and Allied Industries	S.I.C. Code	Major Group 16. Electrical Products Industries - Concluded
*271	Pulp and Paper Mills (s)(i)(o)	*338	Manufacturers of Electric Wire and Cable (s)(i)(o)
*272	Asphalt Roofing Manufacturers (s)(i)(o)	*339	Manufacturers of Miscellaneous Electrical Products (s)(i)(o)
**2731	Folding Box and set-up Box Manufacturers (s)(i)(o)		
**2732	Corrugated Box Manufacturers (s)(i)(o)		
**2733	Paper Bag Manufacturers (s)(i)(o)		
*274	Other Paper Converters (s)(i)(o)		
	<u>Major Group 11. Printing, Publishing and Allied Industries</u>		<u>Major Group 17. Non-Metallic Mineral Products Industries</u>
286	Commercial Printing (s)	**341	Cement Manufacturers (s)(i)(o)
287	Plate Making (including Engraving) Typesetting and Bookbinding for the Trade (s)	343	Lime Manufacturers (s)
288	Publishing Only (s)	345	Gypsum Products Manufacturers (s)
289	Printing and Publishing (s)	**347	Concrete Products Manufacturers (s)(i)(o)
	<u>Major Group 12. Primary Metal Industries</u>	**348	Ready-Mix Concrete Manufacturers (s)(i)
*291	Iron and Steel Mills (s)(i)(o)	3511	Clay Products Manufacturers (from domestic clays) (s)(i)
*292	Steel Pipe and Tube Mills (s)(i)(o)	3512	Clay Products Manufacturers (from imported clays) (s)(i)(o)
*294	Iron Foundries (s)(i)(o)	352	Refractories Manufacturers (s)(i)
*295	Smelting and Refining (s)(i)(o)	353	Stone Products Manufacturers (s)
296	Aluminum Rolling, Casting and Extruding (s)(i)(o)	354	Mineral Wool Manufacturers (s)(i)(o)
*297	Copper and Alloy Rolling, Casting and Extruding (s)(i)(o)	*355	Asbestos Products Manufacturers (s)(i)(o)
298	Metal Rolling, Casting and Extruding, n.e.s. (s)(i)(o)	**3561	Glass Manufacturers (s)(i)(o)
	<u>Major Group 13. Metal Fabricating Industries (except Machinery and Transportation Equipment Industries)</u>	**3562	Glass Products Manufacturers (s)(i)(o)
*301	Boiler and Plate Works (s)(i)(o)	*357	Abrasives Manufacturers (s)(i)(o)
*302	Fabricated Structural Metal Industry (s)(i)(o)	359	Other Non-Metallic Mineral Products Industries (s)(i)
303	Ornamental and Architectural Metal Indus- try (s)(i)(o)		<u>Major Group 18. Petroleum and Coal Products Industries</u>
*304	Metal Stamping, Pressing and Coating Indus- try (s)(i)(o)	**3651	Petroleum Refining (s)(i)
*305	Wire and Wire Products Manufacturers (s)(i)(o)	**3652	Manufacturers of Lubricating Oils and Greases (s)(i)
*306	Hardware, Tool and Cutlery Manufacturers (s)(i)(o)	369	Other Petroleum and Coal Products Industries (s)(i)
307	Heating Equipment Manufacturers (s)(i)(o)		<u>Major Group 19. Chemical and Chemical Products Industry</u>
308	Machine Shops	371	Explosives and Ammunition Manufacturers (s)(i)(o)
*309	Miscellaneous Metal Fabricating Indus- tries (s)(i)(o)	*372	Manufacturers of Mixed Fertilizers (s)(i)
	<u>Major Group 14. Machinery Industries (except Electrical Machinery)</u>	*373	Manufacturers of Plastics and Synthetic Resins (s)(i)(o)
*311	Agricultural Implement Industry (s)(i)(o)	*374	Manufacturers of Pharmaceuticals and Medicines (s)(i)(o)
**315	Miscellaneous Machinery and Equipment Manufacturers (s)(i)(o)	*375	Paint and Varnish Manufacturers (s)(i)(o)
**316	Commercial Refrigeration and Air Conditioning Equipment Manufacturers (s)(i)(o)	*376	Manufacturers of Soap and Cleaning Compounds (s)(i)(o)
*318	Office and Store Manufacturers (s)(i)(o)	*377	Manufacturers of Toilet Preparations (s)(i)
	<u>Major Group 15. Transportation Equipment Industries</u>	378	Manufacturers of Industrial Chemicals (s)(i)(o)
321	Aircraft and Parts Manufacturers (s)(i)(o)	3791	Manufacturers of Printing Inks (s)(i)
*323	Motor Vehicle Manufacturers (s)(i)(o)	3799	Other Chemical Industries, n.e.s. (s)(i)(o)
324	Truck Body and Trailer Manufacturers (s)(i)(o)		<u>Major Group 20. Miscellaneous Manufacturing Industries</u>
*325	Motor Vehicle Parts and Accessories Manufacturers (s)(i)(o)	**3811	Instrument and Related Products Manu- facturers (s)(i)(o)
*326	Railroad Rolling Stock Industry (s)(i)(o)	**3812	Clock and Watch Manufacturers (s)(i)(o)
*327	Shipbuilding and Repair (s)(i)(o)	**3813	Orthopedic and Surgical Appliance Manufacturers (s)(i)(o)
328	Boatbuilding and Repair (s)	**3814	Ophthalmic Goods Manufacturers (s)(i)
329	Miscellaneous Vehicle Manufacturers (s)	**3815	Dental Laboratories
	<u>Major Group 16. Electrical Products Industries</u>	*382	Jewellery and Silverware Manufacturers (s)(i)(o)
*331	Manufacturers of Small Electrical Appliances (s)(i)(o)	*383	Broom, Brush and Mop Industry (s)(i)(o)
*332	Manufacturers of Major Appliances (electric and non-electric) (s)(i)(o)	384	Venetian Blind Manufacturers (s)
*334	Manufacturers of Household Radio and Television Receivers (s)(i)(o)	385	Plastic Fabricators, n.e.s. (s)(i)
*335	Communications Equipment Manufacturers (s)(i)(o)	3931	Sporting Goods Industry (s)(i)
*336	Manufacturers of Electrical Industrial Equipment (s)(i)(o)	3932	Toys and Games Industry (s)
*337	Battery Manufacturers (s)(i)(o)	395	Fur Dressing and Dyeing Industry
		397	Signs and Displays Industry (s)
		3981	Button, Buckle and Fastener Industry (s)
		3982	Candle Manufacturers (s)
		3983	Hair Goods Manufacturers (s)
		3984	Artificial Flowers and Feathers Manufacturers (s)
		3985	Model and Pattern Manufacturers (s)
		3986	Musical Instruments and Sound Recording Industry (s)(i)(o)
		3988	Typewriter Supplies Manufacturers (s)
		3989	Fountain Pen and Pencil Manufacturers (s)(i)(o)
		3993	Smokers' Supplies Manufacturers (s)
		3995	Stamp and Stencil (Rubber and Metal) Manufacturers (s)
		3996	Statuary, Art Goods, Regalia and Novelty Manufacturers (s)
		3997	Umbrella Manufacturers (s)
		3998	Artificial Ice Manufacturers (s)
		3999	Other Miscellaneous Industries (s)(i)(o)

CONCEPTS AND SOURCES

The monthly bulletin of manufacturers' shipments, inventories and orders publishes values of monthly shipments and inventories and unfilled orders on the books at the end of the month estimated on the basis of the latest census of manufactures by monthly returns from representative establishments in each industry. The December 1966 bulletin is the first issue in which the census base of 1964 is used. Values for 1962, 1963 and 1964 are derived directly from each annual census; values for 1965 and 1966 are projected from the 1964 census. The aggregate monthly shipments for each year which is based directly on a census should equal published census values. The year end inventory values published here are for December and thus will differ from the year end census values to the extent which establishments have reported to the census on a fiscal year ending at a date other than December 31. Unfilled orders on books are published for industries where orders are part of the accounting record.

The monthly survey covers approximately 6,500 establishments. The survey accepts combinations of establishments within companies on a monthly basis to accommodate monthly accounting records and also accepts estimates of inventories and orders values if actual records are not available. Many establishments in several industries take inventory only annually and keep no record of orders as orders. The number of firms reporting actual inventory values is approximately two-thirds of the total reporting shipments; approximately one third report unfilled orders.

The monthly sample of establishments in the survey is revised annually in accordance with the census base and the list is kept constant between revisions. The identity of an establishment is also retained between revisions. This is done because, simply stated, the estimates are calculated by multiplying the sum of monthly reported values for each industry in each province by the ratio of the establishments in the sample to the census total for the same unit. Separate ratios are calculated for shipments, inventories and unfilled orders. If a report is not received in time for the monthly compilation an estimated value is written in. Since each month is published first as a preliminary value monthly returns are accepted up to the time the machine compilation is begun and late returns for the month will be used one month later in the revised estimate. Returns received after beginning the compilation for the next month (i.e. January returns received after the February compilation is begun) are not used in the estimates until the following annual revision.

Thus changes in the monthly series will arise from changes in the identity of establishments between censuses, and from the substitution of reported for estimated values.

The inventory values published are shown both for total inventory owned and total inventory held by an establishment. The difference between these values is the amount of inventory financed by progress payments as the work proceeds on goods being produced. Since some goods manufactured are held as in-progress inventory for a considerable time the book value of manufacturers' inventory may build up and, to the extent that this has been covered by the payment received, is higher than the manufacturers' investment in inventory. Both the amount of the manufacturers' investment in inventories and the amount of inventory held by manufacturers is of economic interest. It is also interesting to distinguish between inventory held by the degree of fabrication which has taken place. Consequently firms are asked to report their stocks by level of fabrication: raw materials and components; work in progress and finished products.

Unfilled orders cover orders received but not yet shipped, or treated as a sale, irrespective of work done on them or stocks from which they can be filled. Establishments in many industries do not maintain order books but fill orders as they are received from stocks. Most establishments which do maintain order books strike a value of unfilled orders on their books at the end of each accounting period. New orders received, although an estimate of considerable interest to economists as an indication of the rate at which new business is being received, is not often available from accounting records. Consequently the estimate for new orders published here is derived by industry, by province from the relationship between unfilled orders and shipments.

The definitions, classifications and groupings are taken from the census of manufactures.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island, Yukon and Northwest Territories are not published separately. They are included in the total for Canada.

TABLE 3. - (1) The value of Unfilled Orders and, therefore, of New Orders for industries in major groups - 1, 2, 6, 8, 9, 10, 17, 18 and 19 is small and sample coverage is not adequate to provide separate estimates for them.

(2) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 5. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (2), table 3.

BINDING SECT. APR 6 1972
